

March 27, 2017

Dear Parents:

Prairie View will be having our annual Sciencefest on Thursday, June 1st from 6:00-8:00 P.M. In addition to our event, we are excited to be adding a college/career fair focusing on jobs in the Science, Technology, Engineering, and Math (STEM) fields. We have invited our local colleges to attend and host a booth in the gym for students to visit. Families will have the opportunity to visit classrooms and see science projects as well as visiting booths in the gym. We are inviting any parents who have a job in one of the STEM fields to host a booth as well in our gym. Students would be able to visit the different colleges and careers and learn more about them.

Some examples of STEM jobs are; computer programmer, financial advisor, civil engineer, nutritionist, chemistry teacher, biologist etc.

Having a booth would entail just standing at a table and being available to share information with families about your career. If you have any visuals to share such as a tri fold, pamphlets, photos, that would be great to bring. Students also love take away items such as stickers, pencils, or pens if you have those. We do ask that the students aren't given any candy or food items as we have students with allergies and health concerns.

Being that this is the first time we are planning something like this, we are unsure of the responses we will get for participation. If we have multiple parents with the same job, we will probably have multiple parents at one table if necessary or take the volunteers on a first come first serve basis.

If this is something you are interested in helping with, please complete the information below and return to your child's teacher or the office. Currently, we are just trying to recruit parents to help participate with a booth. We will send out more information as it gets closer with specific details. If you have any questions please contact Kellie Nixon at Kellie.Nixon@mead354.org or Kim Wolfe at Kim.Wolfe@mead354.org.
